

## Parents...

# Here are some great ways to use TuitionKit

TuitionKit has been developed by teachers to help your child revise more effectively and give you a clear idea of what they need to know! With that in mind, Here are some simple ways you can use TuitionKit with your children.

### ● 1) Help your child recap and revise!

TuitionKit has over 2000 tutorial videos focusing on key subject areas for GCSE and A-Level. Whatever the topic, in English, maths or science, TuitionKit has material to help students revise in preparation for exams, or recap the topics taught during the school day. Use the search bar to find all key topics in an instant.

### ● 2) Set up learning ahead of time!

TuitionKit covers all English, maths and science topics. Liaise with your child's teacher in order to prepare your child learning ahead of time. Find the board and create a learning schedule working away from the exam date. Regular use will help students become well aware of key areas they need to know.

### ● 3) Help your child outside of lessons!

Is your child ill or away from school for a period of time? TuitionKit enables learners to access comprehensive resources covering all you want them to know from home. No need to miss out learning anymore!

### ● 4) Track your child's learning

This is one of TuitionKit's most powerful features. You can monitor the progress your child is making using our calendar system. The system allows you to check how your child is progressing throughout a topic, showing you the information using simple pie charts and percentages.

**Give your students the advantage they need with TuitionKit!
